

Explore a Career as a **VETERINARY TECHNOLOGIST/ TECHNICIAN**

What do Veterinary Techs do?

Veterinary technicians and technologists (vet techs) are educated in the care and handling of animals, the basic principles of normal and abnormal life processes, and in many laboratory and clinical procedures. All vet techs work under the supervision of a licensed veterinarian. Some decide to specialize in a certain area. The recognized specialties include dental technology, anesthesia, internal medicine, emergency and critical care, behavior, zoological medicine, and equine veterinary nursing. Veterinary technologists and technicians most often work with small-animal practitioners who care for cats and dogs, but they may also perform a variety of tasks involving mice, rats, sheep, pigs, cattle, birds, or other animals.

Training & Educational Opportunities

You will have plenty of employment opportunities as a veterinary technologist or technician, but first you will need to earn an associate degree. Coursework includes basic animal nursing care, biochemistry, vet anatomy and physiology, animal diseases, surgical nursing for animals, and pharmaceutical training.

As a Veterinary Technologist or Technician you will:

- Administer anesthesia to animals and monitor their responses
- Bathe animals, clip nails or claws, and brush or cut animals' hair
- Collect laboratory samples, such as blood, urine, or tissue for testing
- Observe the behavior and condition of animals
- Provide nursing care or emergency first aid

Vet Techs are in demand in Livingston County!

Livingston County employment of veterinary technicians is expected to increase through 2020. The U.S. Bureau of Labor statistics recognizes the job outlook for this field as growing much faster than average.
